

PRECISIONSKIVED™ ***PTFE/Teflon® Film***
Tape Silicone Adhesive

PRECISIONSKIVED™ is pure unsupported virgin polytetrafluoroethylene (PTFE/Teflon®) film/tape with all the characteristics of our PTFE/Teflon® coated fiberglass tape plus the advantage of being very conformable. It easily stretches and is often used to line large molds. This tape is coated with a high temperature resistant silicone adhesive system on one side.

Features and Benefits

- Excellent release characteristics
- Low friction surface
- Operational and dimensionally stable from –100°F (-73° C) to +500°F (+260° C)
- Chemical resistant
- Abrasion resistant

Physical Properties

Product Number	Backing Thickness (mil)	Breaking Strength (lb. / inch of width)	Adhesion (oz. / inch of width)	Elongation (%)	Dielectric Strength (V / mil)
PC SKIVED-3S	3	15	35	300	1000
PC SKIVED-5S	5	22	35	300	1500
PC SKIVED-10S	10	55	35	300	1200+

These product properties are suggestive and all products can be customized or converted to fit specific application requirements. Please contact us to discuss your unique application needs.
