

DurRelease™

Durable Mandrel Coating Solution

Precision Coating's **durable** mandrel coating solution for stainless steel substrates is designed for optimum **release** for your **Interventional & MIS** mission-critical medical devices. With DurRelease™, your mandrels will withstand multiple cycles of reuse, without compromising integrity.

Application

- Stainless Steel Mandrels

Solution for

- Durability
- Release
- Inventory Management

Advantages

- DurRelease™ increases the **longevity** of your mandrels, *saving you money*.
- Our **15-day turnaround** means you'll have your product in-hand faster, *saving you time*.
- DurRelease™ is engineered for exceptional **release**, ensuring *effortless pulls & low friction*.

Using our **mandrel strip & recoat** process, we can remove the existing coating on your mandrels and reapply DurRelease™ for renewed use, allowing you to use each mandrel *thousands of times* without replacing it.
